The firm's extensive portfolio spans more than 40 countries and includes a wide range of projects from office and residential buildings to civic and cultural spaces to educational facilities.

Laura Gonzalez

Interiors, North Tower Private Residences

An interior designer renowned for freely mixing patterns, materials, styles, and furniture, Gonzalez has invented her own style—an ever-increasingly popular one that inspires but rarely finds equal. Her style embraces classicism but bears a stamp of romanticism. Instead of references to antiquity, she prefers meandering reveries that, with their abundance of sinuous floral patterns, carry her off into pre-Raphaelite reminiscences. Gonzalez composes bustling, narrative interiors in the way that others can pen best-selling novels.

Shma

Landscapes

Shma (means "the earth") is a creative landscape architecture platform with multidisciplinary professions that collaborate to deliver meaningful and thoughtful designs that deal with increasing environmental challenges to create a better earth. A diverse team of landscape architects, technicians, horticulturists, strategic designers, media makers, and researchers actively exchanges ideas and works collaboratively to generate transformative strategies and to deliver tangible and measurable landscape designs that enhance social and environmental sustainability.

Speirs Major

Lighting

Speirs Major is an independent, award-winning international design practice that uses light and darkness to enhance the visual environment. It has helped shape the profession and set a global benchmark for excellence, balancing imagination with realism, passion with pragmatism. Through careful collaboration between its multidisciplinary design team, clients, and design partners, the practice ensures that solutions are sustainable and easy to manage. Its projects reveal buildings and spaces in ways that are new, unexpected, and completely integrated—light architecture in its truest sense.
